

The “Fête des Rois” revisited

Like every year, Geneva VIPs were present at the Hotel Intercontinental for its traditional Epiphany party, co-produced by Dorier.

Shadows and lights, the theme of the evening and a wink to the daily mission of the director of the Intercontinental and his team who open in the shadows to make their clients shine, was a real inspiration to Dorier.

All of the decoration was created in elevation to enhance its effect, above all, amongst the crowd of 800 guests, and a great amount of work was done in terms of the lighting and video projections, with the idea to illustrate the theme in all of its splendour.
